LIVES LOST IN EXPLOSION.

Twenty-five persons are believed to have lost their lives in the explosion of gas which tore up a great section of Gold street, Brooklyn, yesterday, an account of which was published in the Gazette of that day. It is definitely known that 15 persons were buried under the hundreds of tons of earth and timber that were thrown into the air by the explosion, and 10 more persons are reported as missing.

The explosion occurred in a fifty-foot deep excavation that had been made in Gold street between York and Front streets, where a water main was being laid. The gas main recently sprung a leak, and in a manner unknown a spark came in contact with the escaping gas yesterday. Immediately there was a terrific explosion that lifted the surface of the street for half a block in both directions and hurled dirt, paving stones and debris into the air.

When the smoke and dust cleared away it was seen that the street had been opened from doorstep to doorstep over an area of nearly a block. The loosened earth and debris had fallen into the excavation, burying the score of laborers who were at work when the accident happened. Great tongues of flame shot out of crevices in the street and beside them geysers of water leaped into the air from a main that had been shattered by the explosion.

Gold street was crowded with school children when the explosion occurred, and that scores of children were not killed or injured was remarkable. A woman and three children were almost opposite the excavation when the earth crumbled under their feet and they were swept down into the hole under tons of wreckage. Two other children were on the opposite side of the street when the sidewalk caved in and they lost their lives.

Samuel Trout, foreman of the gang of laborers who were laying the water main near the woman and three children who lost their lives. He rushed forward as he felt the street tremble from the explosion, in an endeavor to save them, but he, too, was drawn into the death hole. Trout was ravaged to a cinder.

Only four of the men working in the excavation escaped and their escape was remarkable. These men were digging near the opening of a four-foot sewer and the force of the explosion blew them to the entrance of it. One of the men was hurled farthest in and he pulled the other three after him. Water from the broken main began to pour into the sewer and the four men, in danger of being drowned, ran toward the river, where there was an outlet to the sewer and escaped.

WORK OF ROBBERIES.

Robbers held several citizens at bay early yesterday in Attica, Ohio, while they blew open and robbed the safe belonging to Remington & Sloss of \$6,000 in cash. The robbers were fired upon, but escaped.

A part of the safe was blown through a wall of the store and into the Meyers Hotel, the fragments landing in a room where a guest was asleep. The robbers were discovered while at work upon the safe. Help was called, and many towns-people responded. The citizens surrounded the store, but the safe-crackers would not leave. One robber, with a revolver, held back the crowd at the front door, a second did likewise at the rear door, while a third continued on the safe. When the safe was opened and the money obtained, the robbers made a dash for the street, still leveling their revolvers at the crowd. A few shots were exchanged, but no one was injured. The men went toward Chicago Junction. A posse quickly was formed and is pursuing them. In making their escape the robbers made use of a horse and buggy which they had stolen.

How to Treat a Sprain.

Sprains, swellings and lameness are promptly relieved by Chamberlain's Liniment. This liniment reduces inflammation and soreness so that a sprain may be cured in about one-third the time required by the usual treatment. 25 and 50 cent sizes for sale by W. F. Creighton & Company and Richard Gibson.

THE "BREECHES BIBLE."

A dispatch from Montreal says: A copy of the famous "Breeches Bible," published in London in 1599, and said to be the identical book on which George Washington was obligated as a master Mason, was last night restored to Lodge of Antiquity, No. 1, Q. R., A. F. and A. M., the oldest Masonic lodge in Canada, to which it originally belonged. Antiquity Lodge received its charter from Ireland, and was instituted by officers of the Forty-sixth British Regiment, of which Washington was also a member. The initiation took place in New York on a visit of the Forty-sixth Regiment. The book has since been kept in a vault under the care of various Masonic bodies.

LOVERS OF MUSIC are divided into two classes—those who produce it and those who listen.

YOU can be one of those who PRODUCE MUSIC if you own a

Pianola Piano

WHY remain longer satisfied merely to hear others play the piano, when you can just as well be the player yourself. THERE can be no question but that the pleasure of playing is vastly greater than that of listening. IF you care at all for music, then WHY NOT BE A PIANIST? THE PIANOLA PIANO will supply you with the skill. It will also supply you with a perfect instrument for hand-playing. In tone, in action, in appearance, the Pianola Piano is unsurpassed. EVERY DAY you do without a Pianola Piano you are missing a pleasure which thousands of other people have spent years of their lives to gain.

PIANOLA PIANOS are genuine only when they bear the names of the W. H. B. the S. H. B. the W. H. B. or the S. H. B. No other so-called Player-pianos contain the Pianola or is equipped with such vital improvements as the
